

Structured Exposure to Higher Education for Secondary and Higher Secondary Students

A group of forty students from Barshal High School situated at Balitora, Maupur village, have visited Panchakot Mahavidyalaya on 27/09/2023. The students were accompanied by four teachers of the school. Mr. Samarendra Majhi (Bengali), Mr. Mujai Udil Islam (Mathematics), Mr. Siddhanta Banerjee (Computer Science) and Mr. Ashok Pramanik (English) have escorted the students to visit several areas of the college.

The aim and purpose of the visit was to provide a structural exposure to the higher educational institution. The students have visited the computer science laboratory, Physics laboratory, Zoology laboratory, Chemistry laboratory, Botany laboratory and Geography laboratory. The laboratory visits were aimed at exposing the students to the facilities available in a higher educational institution and to motivate them to pursue higher education after completion of higher secondary education. The students were also escorted to the computer centre, college central library, gymnasium centre, college canteen and different classrooms to enable them understand the wide range of equipments, appliances and materials present in the college that could ease the way to higher education. The flora and fauna in the college campus imbued the students with an understanding

that environmental protection is also given due consideration in higher educational institutions.

The entire campus of Panchakot Mahavidyalaya was visited by the students in the company of their teachers along with various teachers of the college.

The visit could be said to have fulfilled the mission with which the students have come to the college. The students may be said to have received proper motivation in pursuing higher education.

A seminar was also organized in the college seminar hall where the students along with the officials of the school had gathered. Motivational speeches were delivered by the officials of the school and the professors of Panchakot Mahavidyalaya. Several students also shared their ideas and opinions.
