:: Course Overview ::

This course will develop knowledge, understanding and skills in curriculum planning, design and development. The course will enhance teacher's knowledge and understanding about different models and approaches of curriculum design and development.

:: Course Objective ::

On successful completion of the course, participants should be able to

- Understand different approaches and models of curriculum design and development
- Understand steps in designing a curriculum
- Plan, design and develop curriculum

:: Course Outcome ::

At the end of your curriculum design and development course, you will be able to:

- Independently develop or revise curriculum to help with action planning towards fostering improvements in your classroom and your students
- Implement new tools and strategies that can promote enhancements in the classroom or remotely
- Gain confidence through personalized instructor feedback to design, develop or revise projects, lessons and materials for overall curriculum improvement
